He will have no power of registry himself but he should be the medium of communication with the Land Revenue authorities in the matter and should constantly bring pressure to bear on the latter so that the registries may be expedited. In cases of differences of opinion between the Protector and the Land Revenue Officers in regard to the registry of any paricular area, the Protector will place the matter before Government."

The Revenue Department is the proper agency for the assignment of land. The Protector has neither the staff nor the facility which the Revenue Officers can command. Besides, the Protectors's duties cover a wide field and it is thought inexpedient to burden him with additional work, particularly in the early stages.

This is a new appointment in the State and as such it would not be possible to secure the services of an officer who is specially qualified for the post. Government propose to give Mr. Damodaran training for six weeks each in the Madras Presidency and in the Mysore State where similar officers are employed.

(*b*) The Protector of Depressed Classes is an Assistant to the Registrar of Co-operative Societies only for administrative convenience. He will be full-time Protector.
